

Company Profile E-IDAMAN SDN. BHD.

PRESERVING OUR ENVIRONMENT

ABOUT US

“Contributing to the country’s sustainable goal”

Incorporated in 2002, E-Idaman Sdn. Bhd. (EISB) is a waste management solution provider currently operating in the northern states of Peninsular Malaysia. It is jointly owned by Metacorp Berhad and Cenviro Sdn Bhd to undertake the waste management business in Perlis, Kedah, Penang, and Perak.

In 2004, EISB formed Environment Idaman Sdn. Bhd. (ENVI) to undertake the Solid Waste Management concession by the Federal Government and subsequently formed Green Resource Recovery Sdn. Bhd. (GRRSB) in 2015, to tap into the non-concession area of business such as recycling, composition, and landfill management.

MISSION

To lead the solid waste management industry in the country through the creation, innovation and promotion of environmental awareness of sustainable development.

To maximise the shareholders' return on investment and constantly develop and reward our employees by inculcating high-performance culture.

VISION

Preserving Our Environment

SHARED VALUES

Professionalism

Expert in the industry and performing quality with integrity.

Reliable and Accountability

Timely and dependable performance, deliver superior services to stakeholders.

Teamwork

Share the know-how through mentoring and coaching to gain support in enhancing performance.

Continuous Quality Assurance

Improve performance in driving full compliance towards sustainable development.

SUSTAINABLE GOALS

"E-Idaman is committed to providing sustainable solution services for the betterment of our nation and the world"

SUSTAINABLE
DEVELOPMENT
GOALS

Our environment is not ours alone, and based on this EISB is dedicated to protecting it through sustainability solution services. We want to ensure that our waste management and public cleansing will contribute to the nation's development.

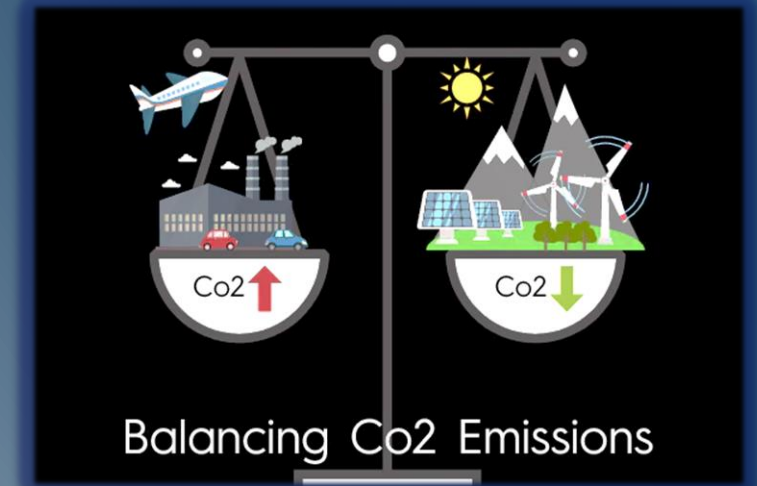

in line with the Sustainable Development Goals (SDGs) and National Solid Waste Management – 'Dasar Kebersihan Negara' practices, corporate responsibility align with five clusters, which are: -

- Cleanliness Awareness,
- Sustainable Environment,
- Circular Economy,
- Management and Enforcement,
- Quality Resource Development.

EISB believes in the future of a symbiotic relationship between our business and environmental sustainability. We provide a broad spectrum of waste solutions for municipalities, industries, commercials and institutions with a focus on diverting wastes from landfills. As a concession company, EISB delivers the best environmental services to meet society's growing needs.

ENVIRONMENTAL SUSTAINABILITY

"E-Idaman Committed To Reducing Carbon Footprints"

E-IDAMAN BUSINESS MODEL

"At EISB we serve both concession and non-concession businesses"

Solid Waste Solution
We provide solutions for your needs in domestic, green, bulky, and organic wastes using innovative approaches and the latest technology.

Public Cleansing Services
We are committed to providing comprehensive public cleansing services which include road sweeping, grass cutting, cleaning of drains, public toilets, dry & wet markets and beaches.

Green Resources Recovery
Embarking on green business frontiers with the Material Recovery Facility (MRF), giving focus to recycling campaigns, private waste collection, cleaning services, anaerobic digestion and composting.

OUR SOLUTIONS

Public cleansing is another scope of service by E-Idaman, under the government's concession.

- Road sweeping
- Grass cutting
- Drain cleaning
- Public toilet cleaning
- Dry and wet market cleaning
- Beach cleaning

Non-Concession Businesses

- Private Waste Collection & Cleaning Services
- Material Recovery Facility
- Anaerobic Digestion
- Composting

E-IDAMAN TECHNOLOGIES

- Geographical Information System (GIS)
 - MResponz
 - Drone Technology
- Automatic Vehicle Locations System

"Technologies is crucial to ensure in providing best services to the people"

EISB introduced the idamanXchange application that provides a solution to recycling activities.

- Identify items suitable for recycling
- Calculate the value of recyclable items
- Identify the location of a recycling centre
- Redeem points from recyclable items into cash or e-wallet money
- Request for collection, and
- Set personal recycling goal

Recycling at your fingertips

"Encourage Recycling though online App"

DRIVE-THRU RECYCLE CENTRE

"If you can drive-thru for food, you sure can drive-thru to recycle"

The Drive-Thru Recycle Centre allows the community to recycle without hassle. Just drive in and drop off your recyclable items.
